USING YOUR G2-PAK[®]

I. OVERVIEW

Our recycling service is an easy to implement and inexpensive solution for businesses to handle 4 foot LED tubes in a responsible way. You will have up to **one year** from purchase date to mail back your g2-PAK[®] container.

Pack up your straight LED lamps to send to our US facility for responsible recycling. It is crucial that you follow all instructions and read through the Terms and Conditions to ensure all regulations are followed. It is your responsibility to abide by local and state laws.

After your service has been completed, you will be emailed a digital **Certificate of Recycling** as proof that your materials have been recycled and successfully avoided the landfill.

With your help, we are Changing The Way The World Recycles[®].
